DNK

DATE WHEN RESULTS AVAILABLE

The “research/evaluation” highlighted here is our standard monitoring and evaluation, which includes surveys pre and post program, and 12 & 24 months post program completion. It also includes case stories, stories of change, and costing studies of our program delivery. As such, this information is processed each year and reported annually – not as a particular research project with a start and end date (also it’s done internally so no partners). Should we adjust answers?
