

STATE OF GRADUATION PROGRAMS December 2016

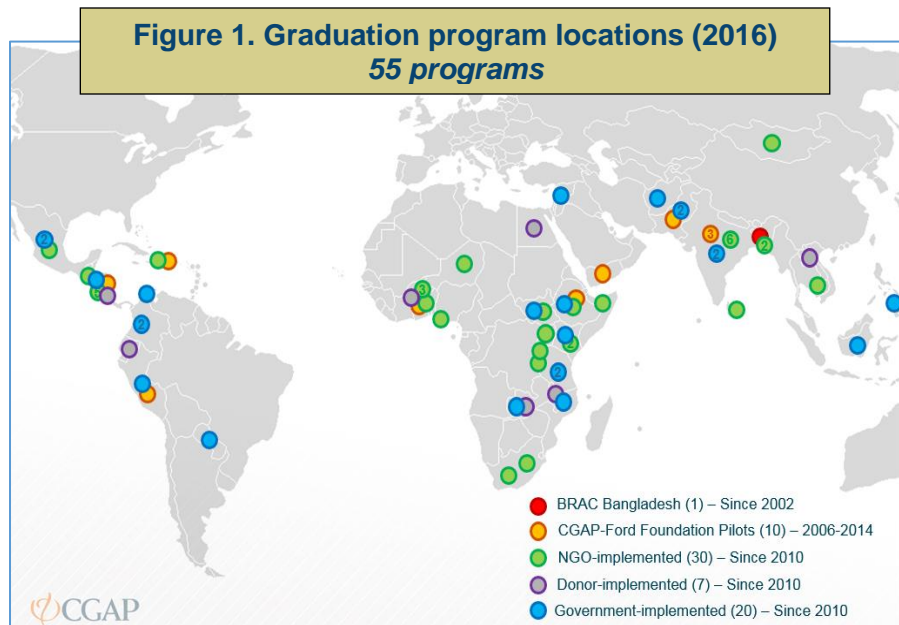

This document presents information collected by CGAP and its partners over July-October 2016 on 55 current and new graduation programs implemented globally. The data was either self-reported by the implementing partner or was collected by interviews with CGAP staff.¹

Comparing this data to the previous information collection (December 2015) shows that efforts to extend economic opportunities to the poorest and most vulnerable populations are gaining traction among governments, donors, and NGOs interested in incorporating graduation-type programming into social protection systems.²

The graduation programs presented in this document have been adapted—sometimes extensively—from the original

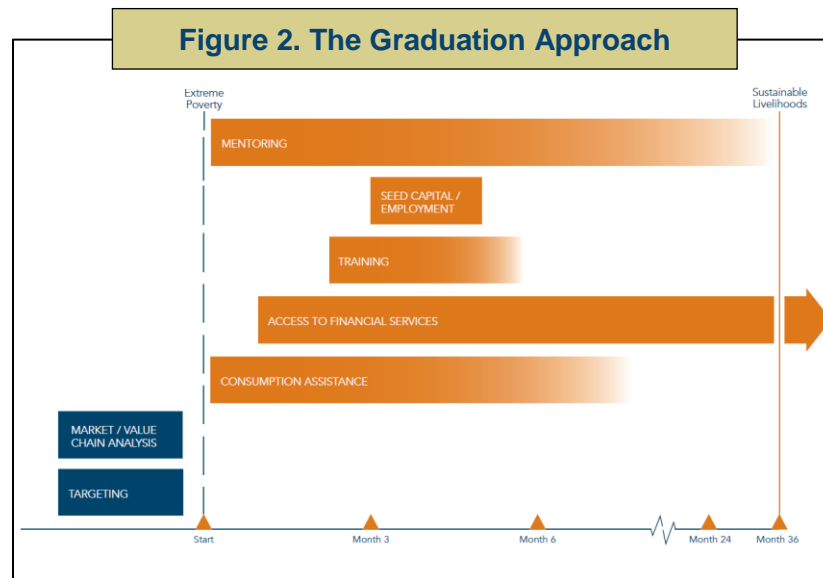

BRAC and CGAP-Ford Foundation graduation approach (Figure 2). However they share some common characteristics: (i) a household level intervention deliberately targeting the extreme poor, either those under the \$1.90-per-day line and/or those identified as the poorest and most marginalized; (ii) a holistic effort (combining social assistance, livelihoods and financial services) in order to tackle the multifaceted constraints of extreme poverty; (iii) a “big push” based on the idea that a large investment to kick-start an economic activity will really make a meaningful change; (iv) an intervention that includes some form of mentoring to help participants overcome not only their economic constraints but also the many social barriers they face; (5) facilitated access to a wider social protection regime and continued access to financial services as a way to carry on building resilience and upward progress.

This document is an inventory of graduation programs globally from which CGAP collects information, and may not reflect all programs that share the above characteristics. Some programs – such as those that are in planning phases or incomplete – are not included in the analysis. Moving forward, we anticipate to collect future factsheet information online and make accessible through an interactive map and searchable database.

¹ Special thanks to Manisha Basnet (Wellspring Advisors), Janet Heisey and Alexi Taylor-Grosman (Trickle Up), Sadna Samaranayake, Lauren Whitehead and Ian Orton (BRAC USA), Austine Gasnier and Tatiana Rincon from Fundacion Capital, and Erika Boll from Global Development Incubator.

² The last factsheet collection exercise, in December 2015 gathered information on 32 programs:

GRADUATION PROGRAMS BY THE NUMBERS

Overview:

- Graduation programming is growing fast. There were 7 new reported implementations in 2016 and an expected 8 in 2017, totaling to **55 implementations globally**.³
- **Over 82%** of projects have integrated the Graduation Approach into their organization’s mainstream strategies reflecting the fact that graduation is becoming an integral part of government’s social protection systems and regular NGO and donor programming.
- Over **2,500,000 households reached to date with graduation programs in 2016**. The average size of a program is approximately 42,475 households and the **median size is 1,350 households** indicating that programs widely vary in size ranging from a mere 150 households in Nicaragua to 675,000 households (reaching approximately 3-5 million people) in Ethiopia.
- **Programs included in this study are projected to reach an additional 1,215,000 households**, with an average of 46,400 per program and a median of 1,700 households in the future.

Figure 3: Program implementer share

³ For the purposes of this study, five programs were not counted due to limited information. This is either before the information was unavailable due to the program’s early stage or the information was not provided.

- Programs are implemented by NGOs (55%), governments (33%), and donors (13%). Government implementations are increasing overtime, including **70% of government implementations occurring since 2015**.

Targeting:

- 31% of projects only target women.
- Programs have shifted their focus from predominantly rural (75% in 2015 to 51% in 2016) to 31% mixed (operating in both rural and urban) and 7% urban in 2016.⁴ This represents over a doubling of mixed and purely urban programs since 2015.
- **Targeting has also shifted to a predominant focus on the poorest** to a broader range of beneficiaries. 62% of programs target populations living on less than \$1.90 a day, down from 73% of programs in 2015 (targeting a slightly different sample of populations living under \$1.25 a day). There is a growing effort to adapt the graduation approach to other vulnerable or marginalized segments such as indigenous groups (31%), refugees and IDPs (9%), youth (18%), people with disabilities (22%), and elderly people (9%).⁵

Figure 5: Percent of programs by targeting specific characteristics

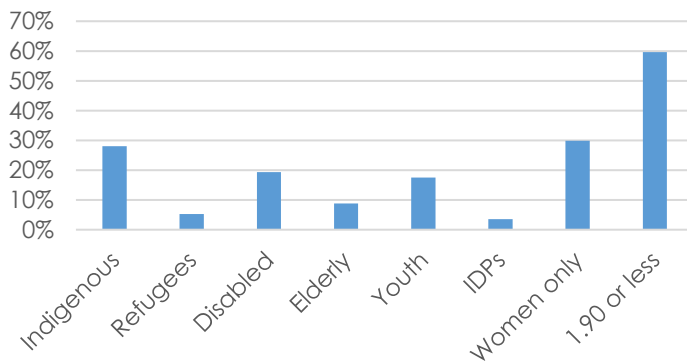

Figure 6: Site location

Costs:

- Per participant, graduation programs cost approximately \$550 per person on average for the duration of the program. The median cost is \$400 per person.⁶
- Cost of program varies by implementer. On average, government programs costs \$780 per person, donor programs cost \$530, and NGO programs cost \$440.
- There is more research required on digitizing components of graduation programs, and which components result in the greatest cost savings at per beneficiary level—no clear trend emerges in terms of cost savings.⁷

⁴ 14% of the sample did not report geography of program.

⁵ 17% of the sample did not report information on targeting.

⁶ Calculations are based on 64% of the sample (mostly approximate costs, not including overheads and administrative costs) and exclude outliers from analysis.

⁷ Programs with digitized transfer of the consumption support cost \$510 on average compared to \$700 for programs that use cash. Programs with digital savings show higher costs on average (\$815 compared to between \$510 - \$800 for those that do not); however, this represents four projects of the total sample: Boma's REAP, PPAF's SSN-TUP, SO's Seeding Opportunities Family by Family, and EPRI's SAIL. These projects also skew higher in respect to cost per person on average, so is not yet conclusive. Digital asset transfers show a higher cost on average relative to other modes of asset transfers (On average, digital

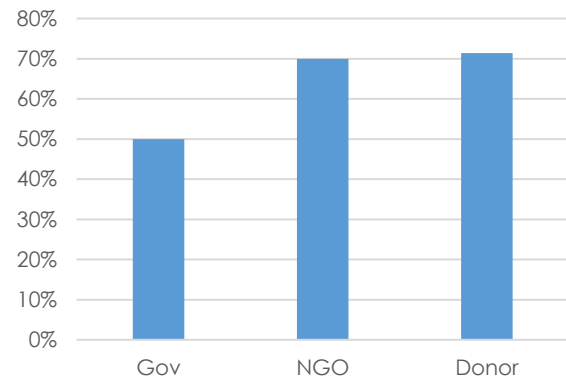

Program components:

- **64% of all implementations globally provide a full provide the full “graduation” package of services to beneficiaries (see figure 2).** NGOs (70%) and donors (71%) are more likely to provide all graduation program components. Governments are less likely to provide a full package, with 50% of implementations including all components. Governments most often exclude coaching and technical training, the more labor intensive activities in the graduation package.

- Digitization:

- There is an increase in components offered digitally since 2015.
- 80% offer consumption support, with 56% providing cash and 20% providing support electronically.
- 90% asset transfers of which 62% are in cash, 36% are in-kind, and 18% are digitized.
- 93% of implementations provide access to savings in some form while 7% provide savings digitally.
- **85%** offer coaching, and 4% is technology enabled in some way (tablet based, or cell phone based).

Figure 7: Programs implemented with all Graduation components

- Specific to components:⁸

- Consumption assistance: 78% of programs provide consumption assistance with 55% of implementers using cash and 19% are using electronic payments. Donors (43%) use electronic payment methods more than NGOs and governments.
- Access to savings: 90% of programs provide access to savings, and providing through groups is the most common method (66%). 55% of government implementations connect beneficiaries to formal banking institutions. NGOs and donors provide financial literacy in most implementations (97% and 86% respectively). Only 67% of government implementations include financial literacy programs.
- Technical skills training: NGOs and donors provide training in most implementations (97% and 86% respectively) compared to 72% of government implementations include technical training.
- Asset transfer: 93% of programs include an asset transfer. Of these, 83% of governments provide cash transfers in some form, while nearly 100% of all NGOs and donors include in implementations. 65% of programs provide cash for assets as opposed to providing the asset in-kind or digitally.
- Coaching: 85% of implementations globally include coaching. Government is less likely (72% of all implementations) to provide coaching relative to NGOs and donors. Implementations have both paid and volunteer coaches, and NGOs show the most experimentation (7% of programs) with tech-enabled coaching methods, though still low overall.

costs \$650 per beneficiary compared to \$475 for cash and \$600 for in-kind). Calculations are based on a sample of 10 projects (or 18% of total implementations globally) that reported digitization.

⁸ Between 9-14% of the sample did not report on specific Graduation program components. Program costs are calculated per person and over the duration of a given program, which range from one to two years.

- Other components: Increasingly NGOs and donors are experimenting with health, psychosocial and legal support.
 - **53%** of programs offer some healthcare component mostly with preventive care through mentoring and/or linkages to healthcare providers(i.e. World Vision, UNHCR, Trickle Up, BOMA, Save the Children)
 - **24%** foster access to wage employment (UNHCR, World Vision, PPAF, Brac)
 - **36%** links to employment, as opposed to self-employment (World Vision, Tata, Odisha, PPAF, Save the Children)
 - **18%** provide legal support (UNHCR, Brac, World Vision, Trickle Up, PPAF)

Research:⁹

- Over **71% of implementations include a research component** to study impact of interventions on beneficiaries. This is down from 84% in 2015.
- **30 implementations include randomized control trials** as part of the research agenda.
- Research focuses on a variety of topics. 42% of research projects¹⁰ assess program components including adaptations and method of delivery, 27% of projects assess long-term impacts of Graduation, and 11% study cost effectiveness. Geography and target population have less of a focus overall, with 3% and 2% respectively.

⁹ 2% of the sample did not report research practices.

¹⁰ Calculations are based on 36 projects that provided specific impact assessments questions. See Annex.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Targeting the Ultra-Poor		
2. Country	Afghanistan		
3. Region (within the country)	5 provinces across the country		
4. Main Contact Person	Name:	Khalil Baheer	
	Organization:	Microfinance Investment Support Facility for Afghanistan (MISFA)	
	Email:	khalil.baheer@misfa.org.af	
	Phone:	+93 795627238	
5. Program Objective(s) (100 words)	The aim of the program is to graduate ultra poor households out of safety net programs to income earning activities as well as linking them with microfinance programs. As a result, income within the household groups is expected to increase in addition to overall wellbeing such as health. The impact of this investment has been estimated with a range of scenarios.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes		
7. Start Date (Year)	August 2015		
8. Estimated End Date (Year)	July 2017		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): MISFA piloted TUP project in Bamyán province, targeting 400 ultra-poor households. The project was replicated in Badakhshan province, doubling the number of beneficiaries. The project is now scaled-up in five provinces targeting a total of 6725 households.		
10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If “yes”, name of overall program(s): Development Finance

TUP Phase IV is also internally linked with many of BRAC’s other initiatives, including the Microfinance programme, the Health, Nutrition and Population Programme (HNPP), the Water Sanitation and Hygiene (WASH) programme, the Human Rights and Legal Aid Services (HRLS) programme, the Education programme, the Gender, Justice, and Diversity (GJD) programme, the Skills Development programme, the Disaster Management and Climate Change (DMCC) programme.

Phase IV will follow the same targeting processes used in Phases I, II, and II, based on a strong history of efficacy. The targeting process is an innovative mixture of participatory, qualitative and survey-based quantitative methods, along with community response and local knowledge aimed at identifying the poorest households and locations. Selection of

<p>What questions do you seek to address? What methodology are you using? (For each research question check all that apply) While prior research comprises an important endorsement of the TUP model, it also has generated a fresh set of questions regarding the efficacy of discrete elements of the programme. As such, research in Phase IV will assess the impact of various interventions within the Graduation programme’s support packages, particularly the supervision model and Village Poverty Reduction Committees.</p> <p>Selected 11 districts are scattered across the country. In each of these 11 districts, BRAC has planned to implement the intervention in eight branch offices. In each district, treatment (both STUP and OTUP) are randomly selected in six branches (among these, randomly selected two branches with weekly supervision, randomly selected two branches with bi-weekly supervision, randomly selected two branches with bi-weekly supervision and group meeting) and the rest two branches with no programme support. Hence, out of the 88 branches of the 11 districts, there will be 66 treatment branches (with 22 branches under each of the three sub-arms) and 22 control branches.</p>		
<p>Question 1: What is the effect of GDBC (Gram Daridro Bimochon Committee or Village Poverty Reduction Committee) on the security of the asset provided to the ultra poor and on mobilization of social supports to the ultra poor?</p>	<p><input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods</p> <p>To see the effect of GDBC, randomization will occur at the village level. From each treatment branch, there will be no GDBC in randomly selected half of the villages.</p>	<p>Timeframe (years): 2</p>
<p>Question 2: Does group meeting among the STUP women help them better manage the enterprises through knowledge sharing and cope crisis through informal insurance?</p>	<p><input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods</p>	<p>Timeframe (years): 2</p>

13. Does the program include research?

<p>Question 3: Does supervision and follow up training/guidance by the programme staff help the participants better manage the enterprises and become more confident in planning their pathways out of extreme poverty?</p>	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods <p>- Treatment will be randomized in several sub-arms ((i) only weekly supervision/training, (ii) bi-weekly supervision/training, and (iii) bi-weekly supervision and group meetings among participants)) at the district level. - In each district, treatment will be distributed in six randomly selected branches (two branches with weekly supervision, two with bi-weekly supervision, two with bi-weekly supervision and group meetings), leaving the remaining branches with no programme support.</p>	<p>Timeframe (years): 2</p>
<p>Question 4: Within urban areas, what is the discrete impact of STUP and OTUP interventions on the livelihoods of the participant women and their families?</p>	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods	<p>Timeframe (years): 2</p>
<p>Question 5: What is the effect of integration of the STUP households from urban areas into regular microfinance (after one year of asset transfers) on their livelihoods?</p>	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods	<p>Timeframe (years): 2</p>
<p>Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words) Thus far, research on the Graduation programme has demonstrated its overall success in lifting households out of extreme poverty. A major study on this impact was the large RCT undertaken in collaboration with the London School of Economics (LSE). Further international research on global replication of the TUP model supported by CGAP and the Ford Foundation has strongly supported these findings.</p>		
<p>14. Scale up:</p>	<p>What are your currently-funded scale-up plans? (50 words) In Phase IV, the programme will debut its OTUP services to the poor residing in the coastal regions. Additionally, BRAC in this phase seeks to establish collaborative relationships with relevant government groups and external NGOs and to identify new opportunities for funding, programme expansion, and innovation. And the programme in Phase IV will develop stronger mechanisms for national advocacy around extreme poverty.</p>

The TUP programme currently collaborates with WASH to try finding out possible services that can be provided to TUP participants through WASH's working areas. • Education programme has built the largest secular, private education system in the world, with over six million students worldwide enrolled in BRAC primary schools. The high-impact, low-cost model of these schools give a second chance at learning to the disadvantaged students who are left behind from the formal education system. The Education programme helps the TUP programme's participant's children in enrolling into BRAC's non-formal schools. In Phase IV, specific linkages with Education are envisioned around tracking the school enrolment of children of participants after graduation. • Skills development programme provides short training courses to ultra poor households. In Phase IV, the TUP programme links with skills-related trainings from this programme so that illiterate participants learn relevant skills to enhance their life skills and gain certification. • Disaster management and climate change (DMCC) programme helps communities become more resilient to disasters. It develops and mainstreams prevention and adaptation strategies while building both institutional and community capacity for emergency response and preparedness. In past few phases, the TUP programme links with the DMCC programme in the form of staff training on disaster related issues and emergency help during disaster situations. <p>Government services</p> <ul style="list-style-type: none"> • BRAC staff have built close working partnerships with relevant government officials and departments (such as with livestock, social forestry, early warning system, water and sanitation, resilient housing (with the purpose of ensuring access to government support and services for participants. 5. Program Objective(s) (100 words)	This is a research project aimed at assessing the impact of the Graduation approach on child protection and wellbeing outcomes. While there is a clear link between economic strengthening and different aspects of child well-being, especially nutrition and education, there is less evidence for the impact of economic strengthening and child protection sensitization training on children. This three-arm randomized control trial evaluates the Graduation Approach with and without child protection sensitization training in comparison to a control group in order to better understand how graduation and complementary services break the intergenerational cycle of poverty.

Question 3:															

	<p>Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words)</p> <p>Findings to date show that economic interventions reduce poverty-related stress symptoms and improve the status of women in their communities as well as in their households, but that they have limited direct impact on many child-related outcomes. However, integrating a child protection component does appear to have a significant impact in reducing exposure to violence and improving child well-being</p>

Graduation Project Fact Sheet

(Please complete one sheet for each program)

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Scaling Graduation in Burkina Faso		
2. Country	Burkina Faso		
3. Region (within the country)	Nord Region, East Region and Center East Region		
4. Main Contact Person	Name:	Yerefolo Malle	
	Organization:	Trickle Up	
	Email:	ymalle@trickleup.org	
	Phone:	+226 25.37.45.63	
5. Program Objective(s) (100 words)	This research initiative is designed to test means of scaling the Graduation Approach cost effectively and with quality. In particular, the project seeks to determine a more cost-effective means to deliver the coaching component at scale, in areas of low population density, through the use of para-social workers. The project is comparing a flexible/needs-based coaching model supported by PBIs to a standard/frequency-based coaching model. Trickle Up seeks to integrate this pilot with an emerging government social protection program to also assess the impact of integration with a cash transfer program.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes		
7. Start Date (Year)	2014 (pre-testing)		
8. Estimated End Date (Year)	2019		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): The project is planned to be integrated into the government’s Cash Transfer Project. It is targeting three regions including the Nord Region, the Centre East and the East Region. Total targeted population is 40,000 beneficiaries.		
10. Component of larger program?	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes. If “yes”, name of overall program(s):		
11. Number of households served to date?	425 (in pre-testing phase)		
12. Targeting Criteria (check all that apply)	<input checked="" type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Indigenous groups	<input type="checkbox"/> People with disabilities	<input type="checkbox"/> Youth

	<input type="checkbox"/> Only People Below US\$3.10 (PPP)/Day If “yes”, what targeting tool used?		
	<input type="checkbox"/> Other Targeting Criteria (please explain)		
13. Does the program include research?	<input type="checkbox"/> No (if no, please proceed to question 14) <input checked="" type="checkbox"/> Yes

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	UN High Commissioner for Refugees: Milk and Artisan Value Chains Graduation Project		
2. Country	Burkina Faso		
3. Region (within the country)	West Africa		
4. Main Contact Person	Name:	Yuvé Guluma	
	Organization:	UNHCR	
	Email:	guluma@unhcr.org	
	Phone:	+226 65 50 47 56	
5. Program Objective(s) (100 words)	<p>This project aims to stimulate profitable and sustainable income-generating activities in the milk and artisan sectors for Malian refugees (and host communities for the milk project) in Burkina Faso. At the end of the projects, participants should be able to meet their essential needs using their own capabilities, resources, and funding. The projects already have a number of aspects related to the Graduation Approach – including a sequenced approach to self-reliance consisting of market analysis, consumption support, capacity building, asset building, cash/capital grants, access to credit, etc. The integration of the Graduation Approach into both projects began a few months ago but it is expected that the approach will create more concrete benchmarks to monitor and through coaching will allow UNHCR to tailor project activities to the needs of individual participants and build in a savings component.</p>

Program Details

1. Program Name	Unleashing the productive capacities of the extreme poor in Burundi		
2. Country	BURUNDI		
3. Region	Central Africa		
4. Main Contact Person	Name: Philippe Rougier		
	Organization: Concern Worldwide		
	Email: philippe.rougier@concern.net		
	Phone:+257 72 221 333		
5. Program Objective (100 words)	Concern Worldwide Burundi (CWB) has been implementing the Graduation Model Programme, since 2012, which aims to enhance the productive capacity of extreme poor and vulnerable households in the West (Cibitoke Province) and North (Kirundo Province). The graduation programme aims to help participants receive protection that guarantees their subsistence and help them escape poverty, through adequate income generation and empowerment. With the Graduation Programme, participants grow to support themselves without external help. In Burundi, the Programme has been implemented through a comprehensive package of support including an initial cash transfer to meet basic needs, an asset transfer, training and coaching in IGAs and running a business and setting up of savings groups. CWB's graduation Programme has been a reference for the design of the Burundi's national social protection strategy from January 2015.		
6. Start Date (Year)	July 2012		
7. Estimated End Date (Year)	December 2016		
8. Pilot Program?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	
9. Is the Graduation Approach being integrated into your organization's ongoing work (beyond piloting)?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	
10. Component of larger program?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	
	If "yes", name of overall program:		
11. Number of households involved	Currently the programme is reaching 2,550 households (HH), as of this year.		
12. Targeting Criteria—Check all that apply	<input checked="" type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Women Only		<input checked="" type="checkbox"/> Mixed Gender
	<input checked="" type="checkbox"/> Only People Below US\$1.25 (PPP)/Day If "yes", what targeting tool used? We carried out a contextual analysis in both provinces Cibitoke and Kirundo. This one helped to identify the different groups living in the target area based on the household's poverty. Then, selection criteria were set up using data given by community members during focus group discussion, from provincial level to colline's level (micro level). We started by ranking groups categories based on the poverty. A mixed participants' target committee has been set up on each village. The main selection criteria were access to land, livestock, assets, income deprivation (access to school for children, access to health services). After the targeting, the preliminary list have been presented to community for transparency and accountability in order to get feedback from the community and local administration to review and pin-point those who may have been included by error. Those picked out are further validated by Concern and targeting. Furthermore, the Complaints response mechanism have been put in place to offer an opportunity for those who may have some issues to raise.		
	<input type="checkbox"/> Only People Below US\$2.50 (PPP)/Day		

If “yes”, what targeting tool used?

13. Does the program include research?

Yes

No

What questions does it seek to address?

Yes, the programme carried out research (and commenced with a baseline in 2012). From random selection, beneficiaries have been split in to three groups: high treatment group (intensive coaching), low treatment group (moderate coaching) and control group (without any support). The research has been conducted in partnership with the Institute of Development Studies (IDS).

Key broad questions include Identifying:

- What are the different pathways to graduation for different participating households?
- What is the impact on human and social indicators of graduation as well as income- or asset-based indicators?
- What changes have there been in household resilience and sustainability of results over time?
- What are the enablers and constraints to graduation beyond the household or programme level, including markets, infrastructure, policies, complementary programmes and services?
- Examination of the design and implementation of the programme/Limitations of the current approach/Lessons for future programming
- Placing current research findings in the context of the emerging literature around graduation internationally and in the discussions around social protection in Burundi.

14. Scale up plans:

What are the main objectives? (100 words)

The programme is being implemented in two provinces (from 2012) covering 3 communes in Cibitoke and 2 communes Kirundo. Up to now, the programme targets 2550 HH (11 474 beneficiaries). After the final evaluation was conducted in October 2015, it was realized that the programme has had a positive impact on direct beneficiaries as well as other community member through spillover effects, especially through SILCs (Saving and Internal Lending Communities), Kitchen garden, IGAs (income Generating Activities). So, CWB has already submitted a proposal to scale up to more beneficiaries in the same provinces, extend to one new province (Bubanza) an deliver a more integrated approach which will include Livelihoods, Agri nutrition and Gender interventions which will contribute more holistically to the wellbeing of the target HH. This new 5 year programme is set to start in January 2017. We have identified key learning from phase 1 and now this informs programme design in phase 2. The programme team also leant from the Concern Rwanda graduation programme.

In addition, the government of Burundi has a plan to implement a social protection programme starting in 4 provinces with the support of the World Bank. Concern Burundi is paying a key role in the design of the programme in collaboration with the World Bank and the government.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Modelo de Graduación		
2. Country	Costa Rica		
3. Region (within the country)	Central America		
4. Main Contact Person	Name:	Valentina Duque	
	Organization:	UNHCR	
	Email:	duquev@unhcr.org	
	Phone:	+506-2296-0827	
5. Program Objective(s) (100 words)	<p>This projects aims to support the most vulnerable people to permanently overcome poverty. The project's objective is that people who "graduate" become self-reliant as a result of having gained a decent job, having built support networks and having strengthened their self-esteem. Costa Rica offers the conditions required to promote the full local integration of refugees, however access to employment opportunities remains the biggest challenge for the population's well-being and protection. Many refugees have valuable previous work experiences and a significant level of education, however, it is often not easy for them to find permanent livelihood opportunities in the country. Among the variety of reasons for this includes the lack of access to information about their rights and documentation, as well as discrimination and difficulties accessing educational opportunities or verification/certification of existing educational qualifications.</p>

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	United Nations High Commissioner for Refugees in Ecuador Graduation Program		
2. Country	Ecuador		
3. Region (within the country)	City of Santo Domingo		
4. Main Contact Person	Name:	Besem Obenson and Daniel Iza	
	Organization:	UNHCR Ecuador	
	Email:	obenson@unhcr.org / iza@unhcr.org	
	Phone:	+593-2240330	
5. Program Objective(s) (100 words)	UNHCR launched the Graduation Model in Ecuador in the town of Santo Domingo in 2015. Santo Domingo is a town of 270,000 people with a thriving market economy located about 3 hours away from Quito. However, the refugee population faces challenges with insertion into these markets. UNHCR Ecuador chose the Graduation Approach in an attempt to link refugee families to a self-sustaining safety net and to infuse upward momentum to lift poor and ultra-poor refugee and Ecuadorian families from their current level of poverty to improved conditions by equipping each household with the skills and means for income generation as well as linking them to existing services.

	Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words) Mid-term: in process. Some considerations to take into account: To achieve sustainable livelihoods, it is important to consider food security and the presence of social networks, and to undertake periodic monitoring from the beginning of the process. Generally, families with food insecurity and lack of networks are more likely to suffer considerable stress, which reduces the ability of the poorest to take advantage of opportunities and make plans for the future. It is very important to ensure close mentoring to detect and solve specific problems or needs that can interfere with the generation of sustainable livelihoods.			
14. Scale up :	What are your currently-funded scale-up plans? <i>(50 words)</i> Scale-up will involve embedding the Graduation Approach in how we do case management nationwide. This means better targeting so that those families meeting the criteria are provided services based on the Graduation Approach.

2. Country	Egypt	
3. Region (within the country)		
4. Main Contact Person	Name:	Danya Kattan, Nermeen Abdelaziz, Rasha Arous
	Organization:	UNHCR
	Email:	kattand@unhcr.org ; abdelazn@unhcr.org ; arous@unhcr.org
	Phone:	+20 120 8211441, +20 1281972652, +20 1281898861
5. Program Objective(s) (100 words)	More than 184,765 refugees and asylum seekers are currently registered with UNHCR Egypt, including refugees from different African countries in a protracted situation and Syrians who entered the country in recent years. UNHCR's cash assistance and the World Food Programme's food assistance can only reach a small part of the population, making income generation essential to enable refugees to cover their basic needs. The Graduation program's main objective is the economic empowerment of refugees and the affected Egypt host community. With the enhancement of soft skills, technical skills, business skills, and business coaching, the program aims to facilitate sustainable engagement in wage employment or self-employment.

5. Program Objective(s) (100 words)	<p>Now in its fourth phase, the PSNP has the following goal: "Resilience to shocks and livelihoods enhanced, and food security and nutrition improved, for rural households vulnerable to food insecurity." The program aims to achieve this by enhancing the participation of food insecure households in an improved rural safety net, with livelihood and nutrition services.</p> <p>PSNP 4 will support access to livelihoods services and opportunities to its clients, including provision of a livelihoods transfer to the poorest (30%) beneficiaries, with the goal to facilitate households' ability to move out of food insecurity and extreme poverty in a sustainable manner.</p> <p>The livelihoods component of the PSNP provides financial literacy training, technical and business skills training, and access to credit, and, for the poorest households, also provides a livelihoods transfer (\$200 cash grant to start up a microenterprise) and intensive coaching and mentoring.</p>								
6. Is this a pilot program? (please "check" by double-clicking in front of the box)	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes								
7. Start Date (Year)	2015 (with transfers starting in 2016)								
8. Estimated End Date (Year)	2020								
9. Is the Graduation Approach being integrated into the lead organization's ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If "yes", please explain (50 words): The livelihoods component of the PSNP provides financial literacy training, technical and business skills training, and access to credit, and, for the poorest households, also provides a livelihoods transfer (\$200 cash grant to start up a microenterprise) and intensive coaching and mentoring.								

10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If "yes", name of overall program(s): PSNP		
11. Number of households served to date?	8,389 households were targeted to receive the livelihoods transfer in 2016; more households will receive it in 2017.		
12. Targeting Criteria (check all that apply)	<input checked="" type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Indigenous groups	<input type="checkbox"/> People with disabilities	<input type="checkbox"/> Youth

	<input type="checkbox"/> Women Only	<input checked="" type="checkbox"/> Mixed Gender	
	<input checked="" type="checkbox"/> Only People Below US\$1.90 (PPP)/Day If "yes", what targeting tool used? The PSNP is targeted to chronically food insecure households in selected areas. Targeting uses community-based public-wealth ranking techniques, which will be combined with index-based verification in the new program.		
	<input type="checkbox"/> Only People Below US\$3.10 (PPP)/Day If "yes", what targeting tool used?		
	<input type="checkbox"/> Other Targeting Criteria (please explain)		
13. Does the program include research?	<input type="checkbox"/> No (if no, please proceed to question 14) <input checked="" type="checkbox"/> Yes		
	What questions do you seek to address? What methodology are you using? (For each research question check all that apply) Impact evaluations as well as regular monitoring will assess the implementation and impact of the livelihoods support component, and specifically its effect on sustainable livelihoods.		
Question 1: Has the PSNP improved food security among households participating in the program? More specifically: a) Has the provision of transfers to households through the PSNP improved food security? b) Has the Livelihood Component improved food security? c) How have various combinations of support, such as the safety net transfers and Livelihood components improved food security? d) Are there differences in the impacts of the program on food security status across the Regions?	<input type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input checked="" type="checkbox"/> Mixed Methods	Timeframe (years): every 2 years (2016, 2018, 2020)	
Question 2: Has the PSNP increased assets and income streams among households? Has the PSNP protected assets or reduced distress sale of assets? Have the safety net transfers	<input type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input checked="" type="checkbox"/> Mixed Methods	Timeframe (years): every 2 years (2016, 2018, 2020)	

<p>and/or livelihood support had this effect?</p> <p>Question 3: What impact has the PSNP had on the poverty levels of beneficiaries as measured by expenditure on food and non-food goods?</p>	<input type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input checked="" type="checkbox"/> Mixed Methods	<p>Timeframe (years): every 2 years (2016, 2018, 2020)</p>
<p>Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words)</p> <p>The livelihoods transfer was just implemented for the first time in 2016; no research findings are available yet.</p>		
<p>14. Scale up :</p>	<p>What are your currently-funded scale-up plans? (50 words)</p> <p>The PSNP expects to implement the livelihoods transfer in a similar number of districts (8 districts) and with a similar number of households in 2017.</p>	
<p>Target no. of households? Up to 10,000 households?</p>	<p>Over how many years? 1 year</p>	
<p>What are your longer term scale-up aspirations? (50 words)</p> <p>The PSNP aim is to reach 30% of the caseload with a livelihoods transfer by 2020 provided that there are sufficient funds to do so.</p>		
<p>Target no. of households? 625,000 households</p>	<p>Over how many years? (from X year to X year) TBD</p>	
<p>15. What is the overall duration of intervention for each household (in months)</p>	<p>12-24 months (initial training and livelihood transfer disbursement, as well as follow-up and coaching and mentoring), while participation in the safety net component may be for multiple years.</p>

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Inclusive Livelihood Development in Tamahu
2. Country	Guatemala
3. Region (within the country)	Tamahu, Alta Verapaz

4. Main Contact Person	Name:	Jorge Coy		
	Organization:	Trickle Up		
	Email:	jcoy@trickleupguate.org		
	Phone:	+502-7951-1207		
5. Program Objective(s) (100 words)	This project engages 150 women and people with disabilities living in extreme poverty in 8 rural communities in an integrated Graduation intervention that combines livelihood planning and training, seed capital grants, mentoring, and savings groups. Municipal staff and a savings group of former Trickle Up participants provide training, mentoring, and coordination services to project participants. The ultimate goal is to empower participant households to overcome extreme poverty while building municipal capacity and commitment to include the poorest in their policies, budgeting, and programming.

5. Program Objective(s) (100 words)	<p>This project features a combination of the Graduation Approach and Community-Based Inclusive Development (DIBC), which is the most prominent approach utilized by disability-focused institutions to promote the integration of people with disabilities, reaching more than half a million people worldwide. The project provides health, education, and social services to 100 children with disabilities while simultaneously increasing the economic capacity of their families through increased savings and income. The project takes place in rural, indigenous communities, where extreme poverty and malnutrition rates are very high and people with disabilities confront significant barriers to full and productive participation in community life. Through a partnership with the municipal government and a local non-governmental organization, Trickle Up aims to build the awareness and capacity of the national disability office to replicate and scale this approach.</p>

14. Scale up :	<p>What are your currently-funded scale-up plans? (50 words)</p> <p>Trickle Up aims to encourage and equip the Guatemalan government, with a particular focus on the national disability office, to replicate this kind of project with their own funding to ultimately ensure the sustainable and systemic inclusion of children and adults with disabilities. Through advocacy efforts, Trickle Up seeks to ensure the inclusion of children and adults with disabilities and people living in extreme poverty in local development plans. Trickle Up will also work with the Ministries of Health and Education to ensure people with disabilities gain access to their facilities and services.</p>

5. Program Objective(s) (100 words)	The Empowering Adolescent Girls in Guatemala project will increase the capacity of 100 young indigenous women, and 100 of their parents and siblings, in ten rural communities in Guatemala to break the intergenerational cycle of poverty through an integrated economic empowerment and reproductive rights project. Specifically, this project aims to increase participants’ income and financial literacy, capacity to access and manage appropriate savings and credit tools, and knowledge of reproductive and sexual rights. Targeting women between the ages of 10 and 19, this project is novel in its incorporation of reproductive and sexual rights training into Graduation.

14. Scale up :	What are your currently-funded scale-up plans? (50 words) Project analysis and learning will be shared with Guatemalan municipal women's offices and child protection roundtables, in an effort to contribute to the ongoing discussions in Guatemala, and Central America more broadly, around reproductive rights and women's empowerment. Trickle Up will incorporate the lessons learned from its work on child protection in Burkina Faso, gender justice in India, and reproductive and sexual rights in Guatemala to develop a "safe space" training strategy to be employed with savings groups globally within the graduation approach.	
	Target no. of households?	Over how many years?
	What are your longer term scale-up aspirations? (50 words) We plan to promote inclusive Graduation projects for adults and children with disabilities, providing them with access to health care and education, and also provide Graduation for young women with a focus on their sexual reproductive health and rights, in at least 5 municipalities to reach 1,000 new participants.

Graduation Project Fact Sheet

(Please complete one sheet for each program)

Program Details

The Graduation Approach is a "big push" to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Village Enterprise's Microenterprise Development Program
2. Country	Kenya and Uganda (currently)
3. Region (within the country)	Kitale, Kenya; Hoima, Uganda; Soroti, Uganda, Nwoya, Uganda
4. Main Contact Person	Name: Dianne Calvi Organization: Village Enterprise Email: dianne@villageenterprise.org Phone: 650-802-8891
5. Program Objective(s) (100 words)	Village Enterprise has been working for over 29 years to end extreme poverty in rural Africa. We believe in the power of entrepreneurship to transform lives. We equip people living in extreme poverty with resources to start sustainable businesses and establish savings groups. Our Graduation program generates increases in income, savings, and standards of living, thus breaking the cycle of poverty. Using mobile technology and expanding through partnerships, Village Enterprise implements a Graduation model that is cost-effective, scalable, and locally adaptable. Working with partners, Village Enterprise has adapted its graduation model for conservation areas, post conflict regions, and for youth.
6. Is this a pilot program? (please "check" by double-clicking in front of the box)	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes
7. Start Date (Year)	Organization started in 1987 implementing a grants-based program for the ultra poor. Comprehensive Graduation Program launched in 2011
8. Estimated End Date (Year)	2030 as the SDG Goal of ending extreme poverty will be reached!
9. Is the Graduation Approach being integrated into the lead organization's ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If "yes", please explain (50 words): Village Enterprise's Microenterprise Development Program is a one-year group-based Graduation Program focusing starting income-generating business for the rural ultra-poor.

<p>10. Component of larger program?</p>	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If "yes", name of overall program(s): Village Enterprise's Microenterprise Development Program		
<p>11. Number of households served to date?</p>	9,700+ in FY 2016 – over 33,600 in the last 5 years

<p>Question 3:</p>	<input type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods	<p>Timeframe (years):</p>	
<p>Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words) In 2013, Village Enterprise launched a three-year, independent RCT being conducted with over 6,600 households in Uganda by Innovations for Poverty Action (IPA) (and baseline by BRAC) with the assistance of academics from Universities of Chicago, Yale, Princeton and Oxford. The study aims to contribute to the current dialogue about how best to design programs for ultra-poor households – a rich discussion following the positive results of BRAC's TUP in Bangladesh (Bandiera et al, 2013) and the CGAP/Ford Foundation Graduation pilots in six countries (Banerjee et al, 2015). The RCT will increase knowledge of the relative impact of each component (cash, training/mentorship, and savings) of Graduation.</p>			
<p>14. Scale up :</p>	<p>What are your currently-funded scale-up plans? (50 words) In the next 5 years, Village Enterprise plans to start 22,000 new income-generating businesses through its existing structure in Kenya and Uganda and 13,000+ additional businesses through 2-3 flagship partnerships in additional African countries. We will lift 700,000 people out of extreme poverty in 5 years.</p>		

Target no. of households? 105,000	Over how many years? 5
What are your longer term scale-up aspirations? (50 words) We aim to end extreme poverty by 2030 through the scale up of our Graduation Program through flagship partnerships.	
Target no. of households? 1,000,000	Over how many years? (from X year to X year) 10 years
15. What is the overall duration of intervention for each household (in months)	12 months

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	National Poverty Targeting Program (NPTP) Graduation Pilot	
2. Country	Lebanon	
3. Region (within the country)	The Middle East and North Africa	
4. Main Contact Person	Name:	Haneen Sayed/Rene Leon Solano
	Organization:	The World Bank Group
	Email:	hsayed@worldbank.org ; rleonsolano@worldbank.org
	Phone:	+1-202-473-8436
5. Program Objective(s) (100 words)	The objective of this program is to pilot a graduation model that would promote increased and sustainable levels of income among the poorest households (HHs) in Lebanon, in order to improve their overall relative poverty levels. To achieve this objective, the graduation pilot will provide self-employment opportunities to male and female members of targeted beneficiary HHs through the delivery of a comprehensive package of services. In the long-term, it is expected that the pilot will contribute to a decrease in the number of beneficiary HHs living under the extreme poverty line in the country.	
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes	
7. Start Date (Year)	January 2017 (preparatory work, including market analysis, starts before)	
8. Estimated End Date (Year)	December 2018	
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): The World Bank social safety net projects are increasingly introducing graduation components in their design, given their importance in increasing households’ income, skills, and human capital to promote increased long-term welfare and poverty reduction.	

10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If "yes", name of overall program(s): Emergency National Poverty Targeted Program (E-NPTP). E-NPTP is Lebanon's main social safety net program. It targets poor and extreme poor Lebanese households through a Proxy Means Testing. E-NPTP provides all its beneficiaries (105,000 HHs) health and education subsidies, as well as a food voucher to the poorest 5,000 HHs.													
11. Number of households served to date?	600 HHs will benefit from the graduation pilot once program implementation begins.													
12. Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words) The team is currently in the process of finalizing the design of the graduation pilot, along with the implementation arrangements. There will be an impact evaluation embedded in														

	the design of the program. Upon the completion of the program, a final evaluation report will be produced on the results of the pilot.	
14. Scale up :	What are your currently-funded scale-up plans? (50 words)	
	Due to limited resources, this is just a pilot. In case of successful results and subject to client's interests, the team may pursue scale-up plans.	
	Target no. of households?	Over how many years?
	What are your longer term scale-up aspirations? (50 words)	
	If the results of the pilot show that the graduation model is an effective means for increasing the livelihoods and employment opportunities of beneficiaries, it has a strong potential to be scaled up nationally to all Lebanese extreme poor households as well as replicated in other MENA countries.	
	Target no. of households?	Over how many years? (from X year to X year)
15. What is the overall duration of intervention for each household (in months)	This package of services will be delivered in a sequenced manner in the course of approximately 24 months.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Pilot Project Malawi I - Reducing Ultra-Poverty through Economic Empowerment of Social Cash Transfer Beneficiaries		
2. Country	Malawi		
3. Region (within the country)	Mwanza District		
4. Main Contact Person	Name:	Ralf Radermacher	
	Organization:	Deutsche Gesellschaft für Internationale Zusammenarbeit GmbH (GIZ)	
	Email:	ralf.radermacher@giz.de	
	Phone:	+265 1 794 893	
5. Program Objective(s) (100 words)	<p>The pilot project aims at finding out how social cash transfer payment (SCTP) beneficiaries can be supported in creating additional income streams which would improve the situation of their households. Three different sets of support are provided to SCTP beneficiaries in four district clusters: 1) a one-off lump sum (equivalent to 12 monthly SCTP payments) in conjunction with financial literacy and business management training 2) a one-off lump sum only, 3) financial literacy and business management training only.</p> <p>The pilot project will contribute evidence towards the graduation pathway for SCTP beneficiaries, by generating comparative data using a randomised control trial on how households perform when equipped with skills and/or cash and what the underlying factors for success are.</p>		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes		
7. Start Date (Year)	September 2015		
8. Estimated End Date (Year)	December 2016		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input type="checkbox"/> Yes If “yes”, please explain (50 words):		
10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If “yes”, name of overall program(s): GIZ Malawi, Social Protection for People in Extreme Poverty		
11. Number of households served to date?	362

	<input type="checkbox"/> Women Only	<input checked="" type="checkbox"/> Mixed Gender	
	<input checked="" type="checkbox"/> Only People Below US\$1.90 (PPP)/Day If “yes”, what targeting tool used? The pilot will target social cash transfer payment beneficiaries. The SCTP targets households that are ultra-poor and labour constrained. Labour constrained in this case is defined as having no able bodied member who is fit for work, due to age (elderly or children), disability, chronic sickness or high dependency.		

<p>For the pilot district, these households have already been identified through a combination of community based targeting and proxy means testing (PMT). The mixed method targeting ranks a community preselected list of households who have been deemed to be poor and whose information is then scored through the management information system (MIS) to determine the most vulnerable.</p>

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Ko'ox Taani Inclusive livelihood development in Yucatan		
2. Country	México		
3. Region (within the country)	Mérida, Yucatan		
4. Main Contact Person	Name:	Xavier Antonio Abreu Sierra	
	Organization:	Ko'ox Taani	
	Email:	xavier@fundacionkt.org	
	Phone:	(521)-0449991636437	
5. Program Objective(s) (100 words)	This project will initially engage around 200 households, focusing on women and people with disabilities living in extreme poverty in 4 municipalities of Mérida, Yucatán in order to pilot and adapt the Graduation Approach to that area. The project's final objectives are empowering around 3,000 participant households to overcome extreme poverty while building municipal capacity and commitment to include the poorest in their policies, budgeting, and programming. Through alliances with 4 municipalities and local organizations working on different kind of social projects, Ko'ox Taani will deliver social protection, livelihood planning and training, seed capital grants, mentoring, and savings groups, with support and technical assistance from Trickle Up in the design and implementation of the Graduation Approach.

The Graduation Approach is a "big push" to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	LAHIA		
2. Country	Niger		
3. Region (within the country)	Maradi region – Aguié and Guidan Roudji districts		
4. Main Contact Person	Name:	Rani Deshpande	
	Organization:	Save the Children	
	Email:	rdeshpande@savechildren.org	
	Phone:	+1.202.794.1585	
5. Program Objective(s) (100 words)	Reduce food insecurity and malnutrition among approximately 19,000 poor rural households in the targeted districts. Specific program objectives include: 1) improving the nutritional status of children under 5 years of age and pregnant/lactating women; 2) increasing access to food for vulnerable households; and 3) reducing vulnerability to food security shocks.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes		
7. Start Date (Year)	2012		
8. Estimated End Date (Year)	2017		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): SC implements many of the elements of the graduation approach through its large-scale food security projects in countries around the world.		
10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If “yes”, name of overall program(s): Same as above		
11. Number of households served to date?	Over 86,000 individuals in 2015

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Social Safety Net-Targeting Ultra Poor (SSN-TUP)		
2. Country	Pakistan		
3. Region (within the country)	Sindh Coastal Area		
4. Main Contact Person	Name:	Mr. Qazi Azmat Isa	
	Organization:	Pakistan Poverty Alleviation Fund	
	Email:	Email:qisa@ppaf.org.pk	
	Phone:	Phone:92-51-300-5009902	
5. Program Objective(s) (100 words)	PPAF initiated the SSN-TUP program with the aim of targeting some of the poorest households, ‘the Ultra Poor’. By providing ultra-poor households with productive assets, the skills to utilize these, a cash allowance to ensure subsistence, access to health services, access to technology and markets; the model aims to provide ultra-poor households the ability to graduate above to a higher non-poor bracket. The aim of the program was to improve access of poor rural women and men to productive assets, skills, services and improved technologies. Particular emphasis was placed on enhancing productivity through pilot schemes for new microfinance products and market access initiatives.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes		
7. Start Date (Year)	September 2007		
8. Estimated End Date (Year)	May 2010		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): The graduation approach has been incorporated and scaled-up across PPAF’s programmes. The Livelihoods, Employment and Enterprise Development unit and components within projects covers this area of graduation. To date assets have been transferred to approximately 90,000 ultra-poor households across the poorest regions of the country. .		
10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If “yes”, name of overall program(s): Livelihoods, Employment and Enterprise Development (LEED).		
11. Number of households served to date?	95,895		
12. Targeting Criteria (check all that apply)	<input checked="" type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Indigenous groups	<input checked="" type="checkbox"/> People with disabilities	<input checked="" type="checkbox"/> Youth
	<input type="checkbox"/> Refugees	<input type="checkbox"/> Internally Displaced	<input checked="" type="checkbox"/> Elderly
	<input type="checkbox"/> Women Only	<input checked="" type="checkbox"/> Mixed Gender	
	<input checked="" type="checkbox"/> Only People Below US\$1.90 (PPP)/Day If “yes”, what targeting tool used? Under the pilot project, the original targeting criteria and tool used was participatory wealth ranking (PWR). However, since 2010, a National Poverty Score card tool has been used which ranks households on an asset based scale from 0-100. Households that score less than 18 on this tool are identified for the asset transfers (this is followed by verification at the community level through community institutions that have been formed under the CDD approach).		

13. Does the program include research?

<input type="checkbox"/> Only People Below US\$3.10 (PPP)/Day If "yes", what targeting tool used?		
<input type="checkbox"/> Other Targeting Criteria (<i>please explain</i>) PSC and PWR		
<input type="checkbox"/> No (<i>if no, please proceed to question 14</i>) <input checked="" type="checkbox"/> Yes		
What questions do you seek to address? What methodology are you using? (For each research question check all that apply)

Question 2: Asset vs Cash Transfers? Which show better outcomes and why?	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods	Timeframe (years):
Question 3:	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input type="checkbox"/> Qualitative research <input type="checkbox"/> Mixed Methods	Timeframe (years): 4 years (midline completed)
Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words)		
<p>In 2014, a comprehensive household survey was conducted one year after the intervention to measure the impact on different outcomes. The major findings from the survey are summarized below:</p> <ul style="list-style-type: none"> • A significant shift in occupational patterns was noted for the households who received assets as well as those who received cash, as they moved away from wage employment and into self-employment. • Following this, household earnings from livestock related businesses registered a significant increase in both treatment arms, whereas earnings from wage employment, particularly casual wage employment, decreased. Net household earnings have so far not shown any change for households who received any type of transfer. • There have been increases in consumption, savings and investment for both treatment arms. 		
14. Scale up : What are your currently-funded scale-up plans? (<i>50 words</i>)		
The program has already scaled under (LEED PPAF-III). PPAF is continuing this asset transfer graduation model under current programmes being carried out in Balochistan and KPK provinces and in FATA. We are also in discussion with various donors to take the graduation model to scale in new locations.		
Target no. of households?	Over how many years?	
100,000	3 years	
What are your longer term scale-up aspirations? (<i>50 words</i>)		
Supporting ultra-poor and vulnerable households out of poverty requires further scale-up and continuous innovation around the basic formula of asset transfers. Our approach takes a longer term view which involves creating an enabling economic environment at the grassroots that can build households capacities for livelihood scale-up, enterprise		

development, and access to a variety of loan and insurance products to help build stronger businesses.

20. Comments	The public private partnership has already established a Social Trust Fund exclusively for families participating in the pilot program. Currently, approximately 300 families are producing chamomile thanks to financing and contracts provided by the Social Trust Fund. The benefit for the families is expected to reach up to 300 USD on a 5 months period. This amount is additional to the asset transfer. The investors that participate in the Trust Fund had agreed to cap the utilities to 8ppa, the current rate for inter-banking loans.

	Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words) Strong positive and statistically significant results on total income, food security. Impact on financial literacy is positive and significant but small. Results show that beneficiaries took different components, depending on their needs, generating important impact heterogeneity. Demand driven approaches are important to adapt for different demands, even on the ultra-poor .

(Please complete one sheet for each program)

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Graduation pathway from survival to subsistence to self-sufficiency		
2. Country	Philippines		
3. Region (within the country)	TBD		
4. Main Contact Person	Name:	Karin Schelzig Senior Social Sector Specialist	
	Organization:	Asian Development Bank	
	Email:	+632 683 1901	
	Phone:	kschelzig@adb.org	
5. Program Objective(s) (100 words)	DSWD recognizes the need to provide an integrated and seamless strategy to ensure that different segments of the poor (the poorest and most vulnerable, the poor, and the economically active poor) can be protected from food insecurity and vulnerability, provided with opportunities to promote livelihoods and engaged in community activities to build inclusion, accountability and social capital. It is therefore focusing on a convergence initiative to ensure that the three programs (Pantawid Pamilya; Kalahi-CIDDS National Community Driven development Program; Sustainable Livelihoods Program) and others targeted to the poor are internally and externally integrated. The end objective of DSWD and the convergence of different programs (the three mentioned above as well as others that focus on economic sufficiency and social adequacy) is to create a “graduation” pathway from survival to subsistence to self-sufficiency.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes

20. Comments	The pilot is still in planning stage. ADB seeks to hire a technical assistance provider that can assist DSWD in implementing their convergence strategy, as it directly relates to graduating the poorest, through a pilot program. The technical assistance provider will use the experience of the pilot to prepare a strategy for massive scaling up of the convergence approach. It will also prepare detailed project implementation guides, field manuals, training manuals, and monitoring systems to be used for the pilot as well as the subsequent scaling up.

3. Region	East Africa

4. Main Contact Person	Name: Odette Kweli		
	Organization: Concern Worldwide		
	Email: Odette.kweli@concern.net		
	Phone:+250 7882 76880		
5. Program Objective (100 words)	<p>Concern Worldwide Rwanda (CWR) has been implementing the Graduation Programme, since 2012, which aims to enhance the productive capacity of extreme poor and vulnerable households in the Southern Province of Rwanda. Aligned with the Economic Development and Poverty Reduction Strategy, the programme contributes to poverty reduction among the target extreme poor, by facilitating off-farm employment, integrating the them with the labour market and providing support through cash transfer (for consumption support and income generating) to enable beneficiaries meet their basic needs build sustainable assets. Through tailor-made modules for semi-illiterate participants, we carry out business skills trainings and regular coaching, to enhance their capacity to engage in productive assets. The program learning over the past 4 years has provided insights to the Rwanda's Vision 2020 Umurenge Programme (VUP 2020) strategy review in the recent past.</p>

9. Is the Graduation Approach being integrated into your organization's ongoing work (beyond piloting)?	<input checked="" type="checkbox"/> Yes		<input type="checkbox"/> No
10. Component of larger program?	<input type="checkbox"/> Yes		<input checked="" type="checkbox"/> No
	If "yes", name of overall program:		
11. Number of households involved	Currently the programme is reaching 3,200 households (HH), as of this year.		
12. Targeting Criteria—Check all that apply	<input checked="" type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Women Only		<input checked="" type="checkbox"/> Mixed Gender
	<input checked="" type="checkbox"/> Only People Below US\$1.25 (PPP)/Day If "yes", what targeting tool used? We set the selection criteria that ensure those selected belong to the bottom two of the community-based wealth mapping system, namely those who do not have assets (land and livestock), secondary education or other sources of NGO support. Both community targeting in groups of men, women and leader and then plenary and home validation to find out if all selected households do meet the selection criteria are used. For transparency and in order to get feedback from the community, the preliminary list is hang on the walls of the administration office and the community is requested to review and pin-point those who may have been included by error. Those picked out are further validated by Concern and or partner staff to ensure they are not victimized. Furthermore, the Complaints response mechanism offers an opportunity for the appeal process for those who may wish to do so.		
	<input type="checkbox"/> Only People Below US\$2.50 (PPP)/Day If "yes", what targeting tool used?		
13. Does the program include research?	<input checked="" type="checkbox"/> Yes		<input type="checkbox"/> No
	What questions does it seek to address? Yes, Concern Rwanda carries out a research (and commenced with a baseline in 2011 for both the target HH and a control group of HH in similar setting but who do not receive an support), in partnership with the Institute of Development Studies. Key broad questions include Identifying:		

- Different pathways to graduation for different participating households;
- Human and social indicators of graduation as well as income- or asset-based indicators;
- Indicators of resilience and sustainability over time that go beyond reaching benchmarks or crossing thresholds at one point in time;
- Enablers and constraints to graduation beyond the household or programme level, including markets, infrastructure, policies, complementary programmes and services.
- Examination of the design and implementation of the programme/Limitations of the current approach/Lessons for future programming
- Placing current research findings in the context of the emerging literature around graduation internationally and in the discussions around social protection in Rwanda

14. Scale up plans:

What are the main objectives? (100 words)

The programme was initially implemented in four districts (2014), and has since been scaled up to an additional district of Gisagara. The programme currently reaches over 3,200HH with 13,536 beneficiaries within year (2016). During the strategic planning (2017-2020), the country team prioritized scaling up an integrated graduation programme that will include health & nutrition, education and livelihood interventions which will ensure holistic wellbeing of the target HH in Rwanda.

In addition, the government of Rwanda has reviewed the Concern implementation approach with an objective of learning and incorporating best practices from our current programme, and have started to incorporate the minimum package elements of targeting, coaching, monitoring and evaluation of the VUP programme, as outlined in the National Social Protection Strategy. In addition, the Government has collaborated with Concern Rwanda to finalize the business module that will form main training tool/resource for semi-illiterate programme participants.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Somalia Resilience Program (Consortium: Action contre la Faim, Oxfam, World Vision, Danish Refugee Council, Care, COOPI and ADRA)		
2. Country	Somalia		
3. Region (within the country)	Gedo, Bakool, Sanaag, Sool, Nugaal, Togdheer, W. Galbeed, Bay, Galgaduud, Shabelle Hoose		
4. Main Contact Person	Name:	Andrew Lanyon	
	Organization:	World Vision	
	Email:	Andrew_lanyon@wvi.org	
	Phone:		
5. Program Objective(s) (100 words)	<ul style="list-style-type: none"> • Tackle underlying causes of people’s vulnerability to droughts and dry seasons • Support existing livelihoods strategies – especially managing risks from predictable shocks (drought, dry season) • Where appropriate support to diversify into activities which offer livelihood options less effected by drought and dry season • Ensure community-level contingency planning for drought and dry seasons • Work with communities to explore alternatives to negative coping strategies that leave them worse off in the long term • Work with others to promote sustainable pastoralism and seek alternatives for unsustainable practices • Support communities to understand and address the risks they face 		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes		
7. Start Date (Year)	Phase I: 2013		
8. Estimated End Date (Year)	Phase 2: 2019		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): World Vision is the lead organization of this consortium. Globally WVI Resilience and livelihood Strategy encompasses a graduation approach. Establishing families in risk-diversified livelihoods by strengthening productivity and profitability, assuring access to markets and financial services, sustainable management of natural resources and effective community based disaster risk management.

<p>The Role of Savings groups , financial inclusion and Fragile contexts</p>														
<p>Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words)</p> <p>SomReP agencies reach 2169 highly vulnerable individuals through savings groups. Quantitative high frequency data; case studies on promising practices and qualitative research thus far highlights that savings group members access loans to prevent the use of negative coping strategies at the household level, while additionally engaging in collective action to invest in community livelihood and protect against the impact of drought. Members report that groups allow for enhanced social interaction within their existing social network and provide opportunities to expand social ties and opportunities outside of their communities.</p> <p>Other research ongoing</p>

Graduation Project Fact Sheet

(Please complete one sheet for each program)

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Saving and Investment Linkages (SAIL) - Pilot to Link South Africa’s Child Support Grant to Financial Inclusion and Economic Opportunities		
2. Country	South Africa		
3. Region (within the country)	National with two representative provinces: Limpopo and Western Cape (at opposite ends of the country, in more ways than one)		
4. Main Contact Person	Name:	Michael Samson and Ingrid van Niekerk	
	Organization:	Economic Policy Research Institute	
	Email:	directors@epri.org.za	
	Phone:	+27 21 6713301	
5. Program Objective(s) (100 words)	To enable poor households to more effectively smooth transition from receipt of Child Support Grant (CSG) to more sustainable income security by providing a savings and financial inclusion mechanism that supports human capital and financial asset development through the two final years of high school. To offer opportunities for youth’s life trajectories after high school by nurturing hope and choices through financial inclusion and developmental support.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes		
7. Start Date (Year)	March 2013		
8. Estimated End Date (Year)	March 2016 (phase 1)		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes EPRI is evaluating the SAIL program with an integrated assessment approach that quantifies cross-sectoral outcomes, including income security, poverty reduction, livelihoods development, education, social inclusion and health (including HIV prevention).		
10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes. If “yes”, name of overall program(s): Child Support Grant of South Africa		
11. Number of households served to date?	1661		
12. Targeting Criteria (check all that apply)	<input type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input checked="" type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Indigenous groups	<input type="checkbox"/> People with disabilities	<input type="checkbox"/> Youth
	<input type="checkbox"/> Refugees	<input type="checkbox"/> Internally Displaced	<input type="checkbox"/> Elderly
	<input type="checkbox"/> Women Only	<input checked="" type="checkbox"/> Mixed Gender (2/3rds women)	
	<input type="checkbox"/> Only People Below US\$1.90 (PPP)/Day If “yes”, what targeting tool used?		
<input type="checkbox"/> Only People Below US\$3.10 (PPP)/Day If “yes”, what targeting tool used?			
<input checked="" type="checkbox"/> Other Targeting Criteria (please explain) Only families with children receiving Foster Care grant or Child Support grant enrolled in study.			

13. Does the program include research?	<input type="checkbox"/> No (if no, please proceed to question 14) <input checked="" type="checkbox"/> Yes	
What questions do you seek to address? What methodology are you using? (For each research question check all that apply)		
Question 1: Does financial coaching and incentives and or youth development lead to increases in savings among study families?	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input checked="" type="checkbox"/> Qualitative research <input checked="" type="checkbox"/> Mixed Methods	Timeframe (years): 3 years
Question 2: Will youth more likely complete high school?	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input checked="" type="checkbox"/> Qualitative research <input checked="" type="checkbox"/> Mixed Methods	Timeframe (years): 3 years
Question 3: Will youth in households that are saving more likely engage in positive post school activities such as further and higher education/ entrepreneurial activity or successful job searches?	<input checked="" type="checkbox"/> Randomized Evaluation (RCT) <input type="checkbox"/> Other Quantitative research <input checked="" type="checkbox"/> Qualitative research <input checked="" type="checkbox"/> Mixed Methods	Timeframe (years): 3 years
The end-line assessment quantifies significant impacts in terms of increased household savings, improved school attendance and performance, and increased rates of transition to higher and further education. In addition, the program reduces adolescent risky behaviors potentially reducing HIV infection risk.		
14. Scale up :	What are your currently-funded scale-up plans? (50 words) Scale-up plans are currently unfunded.	
Target no. of households? 2000	Over how many years? 4 years	
What are your longer term scale-up aspirations? (50 words) <i>EPRI aims to scale-up the program to an additional two provinces with additional parental care interventions.</i>		
Target no. of households? 2000	Over how many years? (from X year to X year) 4 years (from 2016 to 2020)	
15. What is the overall duration of intervention for each household (in months)

Graduation Project Fact Sheet

(Please complete one sheet for each program)

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Graduation Model	
2. Country	Sri Lanka	
3. Region (within the country)	World Vision served over 2,000 communities in more than 600 small administrative divisions in 20 Districts throughout the country.	
4. Main Contact Person	Name:	W.M.A.Sisira Fernando
	Organization:	World Vision Lanka (WVL)
	Email:	sisira_fernando@wvi.org
	Phone:	+94717216852
5. Program Objective(s) (100 words)	World Vision is an international NGO working more than 100 countries around the world and the organization has three pillars in programming, which are Transformational Development, Humanitarian Emergency Affairs and Advocacy. In Transformational Development we are working with quite large geographical locations (targeting populations around 25000 – 50000) over a longer time period of 15 years to achieve the primary objective of child wellbeing through Area Development Programmes (ADP). Prominent sub sectors of projects in the Area Development Programmes are Health and Nutrition, Education and Life skills, Water and Sanitation, Child Protection and Participation, Leadership and Economic and Agriculture Development. While Health and Nutrition, Education and Life Skills projects directly contribute to Child wellbeing targets, Economic and Agriculture Development projects contribute to sustainability of Child Wellbeing targets.	
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	No	
7. Start Date (Year)	2013	
8. Estimated End Date (Year)		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	Yes. In WVL, the Economic and Agriculture Project identified different living standard segments (as per the poverty pyramid) during the planning stage. The two segments targeted for implementation of the Graduation Approach are the ‘poorest of the poor’ (PoP) and the ‘poor’ (out of six living standard segments). Of the 40 Area Development Programmes in WVL, more than 80% align to Graduation Model.	
10. Component of larger program?	Yes. Economic and Agriculture Development is the larger project of WVL, and deliverables start with selection through the Participatory Living Standards Ranking (PLSR). This is further developed by Participatory Wealth Ranking (PWR) and Nutritional Assessment of the Family, Generate Your Business Idea(GYB), Family Development Plans (FDP), Integrated Home Gardening (IHG), Savings Clubs (ASCA), Skills Transfer (ST) and	

	Technology Transfer (TF), Start Your Business (SYB) with preparation of Business plans and Asset Transfer (AT) and finally introduced to MFI called Vision Fund Lanka.		
11. Number of households served to date?	2935		
12. Targeting Criteria (check all that apply)	Rural		
	Indigenous groups	People with disabilities	Youth
		Mixed Gender	
	Only People Below US\$1.90 (PPP)/Day If “yes”, what targeting tool used? Yes, WVL developed a tool called Participatory Living Standard Ranking (PLSR), based on Participatory Wealth Ranking.		
Only People Below US\$3.10 (PPP)/Day If “yes”, what targeting tool used?			
Other Targeting Criteria <i>(please explain)</i> Poorest of the poor (PoP) – Families those who unable to fulfill daily dietary requirement. Poor – Families those who able to fulfill the daily dietary requirements but shelter either floor or roof not permanent and space less than 525 square feet.			
13. Does the program include research?	Yes		
What questions do you seek to address? What methodology are you using? (For each research question check all that apply)			
Question 1: Proportion of parents or caregivers able to provide well for their children	Randomized Evaluation (RCT)	Timeframe (years): 6 Month	
Question 2: % of HH reported that they have met the minimum family dietary diversity	Qualitative research	6 Months	
Question 3: % of Families reported that they have improved market opportunities for their products.	Mixed Methods	6 Months	
Please briefly summarize the findings of your research? Is there new evidence emerging of what works and what doesn't? (100 words)			
In view that the PLSR assessments and the monitoring of the graduation model is ongoing, it is not possible to quantify the „graduation“ of households among asset rankings yet (against their baselines). An estimate of the graduation has been made, based on available quantitative and qualitative evidence. The estimation is based on 31 ADPs that followed the graduation pathway in FY15. Unlike in FY14, the targeted graduation has been reduced to 1% in the PoP category and 2% in poor. Especially in the transition ADPs when mobilizing resources. WVL works with a multiplicity of partners, when addressing the needs of the P and PoP.			
14. Scale up :	What are your currently-funded scale-up plans? <i>(50 words)</i>		
In this financial year (2016), total budget allocated of USD 4,313,100 for Economic and Agriculture Development Sector including Graduation Model of poorest of the poor and poor families: (2935) 1780 youths, and 111 families of people with disabilities (PWDs). According to the result of the above mention research WVL has been able to divert greater proportion of existing funding to the “Graduation Model”			
Target no. of households?	Over how many years?		
6000	Initially another three years		

	<p>What are your longer term scale-up aspirations? (50 words)</p> <p>WVL is already in its new strategic cycle (FY 17 to FY 19) and planning to continue with Graduation Model, targeting 7700 families (identified poorest of the poor and poor) in PLSR study. Once research is completed with positive impact, it will be a major approach of WVL's Economic and Agriculture Development Sector.</p>	
	<p>Target no. of households?</p> <p>6000</p>	<p>Over how many years? (from X year to X year)</p> <p>1st October 2016 to 30th September 2019.</p>
<p>15. What is the overall duration of intervention for each household (in months)</p>	<p>24 Months</p>	
<p>16. Program design: Does the program offer the following key component? If yes, how is it provided? (check all that apply)</p>	<p>Stipend for consumption support</p>	<p>Mix – only allocated to poorest of the poor families. Also allocated supplementary feeding for those children who are severely malnourished.</p> <p>If cash, is it delivered electronically? No</p>
	<p>Asset transfer</p>	<p>Other –Based on initial assessment ILO developed tool called Generate Your Business Idea training and completion of action plan which is transited to Family Development Plan (FDP). WVL discourages cash transfers but based on agreement of FDP, provides asset transfers.</p> <p>If cash, is it delivered electronically? No</p>
	<p>Access to savings services</p>	<p>If yes, what type of services? Yes Saving groups (SHG, VSLA etc.)</p>
	<p>Coaching (regularly scheduled “hand-holding” visits, beyond monitoring visits)</p>	<p>If yes, who does the coaching? (check all that apply) Paid field staff – Project Officers, Programme Coordinators and Development Facilitators. Paid community members – In some ADPs have Community Mobilizers, Voluntary community members- Leader Farmers, Leader Mothers and Child Society Leaders Other (please explain) – WVL uses business facilitators who provide business training.</p> <p>If yes, at what level does coaching take place? Individual household visits – by WV staff and Community Leaders Individual business/place of employment visit – By Business Facilitators Group meeting (enterprise or savings group) By WV staff</p> <p>If yes, what is the frequency of coaching visits? Weekly - No Bi-monthly – Leader Farmers and Leader Mothers Monthly – Paid Mobilizers if applicable Other (please explain) Quarterly Business Facilitators and WV Staff</p>
	<p>Technical skills training</p>	<p>If yes, how is the training provided? Individual training- In exceptional cases Group training – Yes most commonly If yes, what is the frequency of the training? One-time training -No Repeated training - Yes most commonly Other (please explain) – Followed with Exposure Visits</p>
	<p>Other services offered:</p> <p>Financial capability training – Yes it's incorporated with ASCA (Savings Clubs). Access to credit - Yes, with our MFI arm called Vision Fund Access to insurance – In some cases Technical skills training – Based on requirement Wage employment – Yes depends on FDP incorporated with local value chain</p>	

<p>17. Graduation Criteria (at end of intervention): (please check all that apply)</p>	<p>Links to job opportunities – Optional with Youth Legal services – Not yet practice Psychosocial support – Yes especially with resettlement Healthcare services – This is intentionally incorporated with nutrition (PD/Health) - if children need to be referred for medical treatments. Other. If “Other”, what services offered?</p>		
<p>18. Technical assistance (TA)</p>	<p>Name of TA Provider:</p>	<p>Department of Agriculture, Department of Animal Production and Health, Industrial Development Board, Export Agriculture, Department of Agrarian Services, Ministry of Small Industries, Industrial Technology Institute and Privet Companies.</p>	
	<p>Services offered by Technical Assistance Providers: (Please check all that apply)</p>	<p>Advice program design - Yes Staff training - Yes HR & Management - No Other (please explain) – Beneficiary Training</p>	
<p>19. Overall cost per participant over full duration of the program (in USD\$)</p>	<p>There are two different costs for ‘poorest of the poor’ (POP) and ‘poor’ segments: PoP costs around US 464, and poor costs US 432.</p>		
<p>20. Who is implementing what?</p>	<p>Services offered by each organization (Please check all that apply)</p>	<p>Name of organization</p>	<p>Type of organization providing services</p>

20. Comments	World Vision Lanka developed its Graduation Model based on the BRAC 'graduation of destitute' segments, which we called 'poorest of the poor' and 'poor' and also developed above segments of poverty pyramid based on Local Economic Development (LED) Framework, so only this reporting is limited to WVL's Graduation Model Approach 1. This Approach 1 is also intentionally integrated with Health and Nutrition Segment.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Targeting the Ultra Poor programme		
2. Country	Tanzania		
3. Region (within the country)	Dodoma region and Tabora region		
4. Main Contact Person	Name:	Lauren Whitehead	
	Organization:	BRAC USA	
	Email:	lauren@bracusa.org	
	Phone:	+1 202-808-5615	
5. Program Objective(s) (100 words)	This pilot program will introduce the TUP Program among participants identified in the Dodoma and Tabora regions of Tanzania. The program will link to existing services provided through the Tanzania Social Action Fund (TASAF) in partnership with the national government. Particular emphasis will potentially be placed on the untested dimensions of the Graduation approach, such as the frequency of home visits. The idea is to do so with rigorous evidence-gathering (preferably through RCTs), while ensuring that the pilot is well-positioned for scale from the outset (through building relationships with local policy makers and public sector agencies). Program pending confirmation of external funding sources.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes		
7. Start Date (Year)	TUP 2017		
8. Estimated End Date (Year)	2019		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): Yes, the Graduation Approach is integrated into BRAC’s ongoing and extensive efforts to end poverty. BRAC is recognized as a leading institution in the Graduation movement.		
10. Component of larger program?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, name of overall program(s): Potentially in collaboration with the Tanzania Social Action Fund (TASAF).		
11. Number of households served to date?	1800 HHs to be targeted to receive a variation of the program.		
12. Targeting Criteria (check all that apply)	<input type="checkbox"/> Rural	<input type="checkbox"/> Urban	<input checked="" type="checkbox"/> Mixed, Rural & Urban
	<input type="checkbox"/> Indigenous groups	<input type="checkbox"/> People with disabilities	<input type="checkbox"/> Youth

	<input checked="" type="checkbox"/> Women Only	<input type="checkbox"/> Mixed Gender	
	<input checked="" type="checkbox"/> Only People Below US\$1.90 (PPP)/Day		
	If “yes”, what targeting tool used? The program commences with a thorough targeting process, including triangulation of existing poverty scoring and geographic mapping, participatory wealth ranking, and home validation exercises to verify the results of the wealth ranking. Community buy-in is enhanced through an open and transparent participatory wealth-ranking process. As possible, TASAF’s existing targeting process will be leveraged to align with TASAF objectives and streamline the targeting and selection process.		
<input type="checkbox"/> Only People Below US\$3.10 (PPP)/Day			
If “yes”, what targeting tool used?			

<p>13. Does the program include research?</p>	<p><input checked="" type="checkbox"/> Other Targeting Criteria (please explain) BRAC typically uses the following criteria to include the most vulnerable:</p> <ul style="list-style-type: none"> - Households have children of school-going age who are engaged in manual labor - Households do not own land or have minimal land ownership - Households do not have an active male income earner - Households exhibit characteristics of malnutrition and high food insecurity - One or more household members earn a livelihood through begging - One or more household members earn a livelihood through daily domestic labour <p><input type="checkbox"/> No (if no, please proceed to question 14) <input checked="" type="checkbox"/> Yes</p>	
	<p>What questions do you seek to address? What methodology are you using? (For each research question check all that apply) In order to test hypotheses about how the program best delivers impact while remaining cost effective, BRAC will assess through an RCT variations on program components pertaining to frequency of home visits and cash distribution.</p> <ul style="list-style-type: none"> • Group 1: 500 households from 50 villages receive the Full Graduation Program (including productive asset transfer, consumption stipend, skills/enterprise related training, hands-on coaching through weekly home visits, facilitation towards health care service inclusion, facilitation towards appropriate savings and financial services, and encouraging social integration of participants into the broader community). • Group 2: 500 households from 50 villages receive the Graduation Program with Monthly Group visits, which includes all the elements of the program with hands-on coaching through monthly group visits rather than weekly, individualized ones • Group 3: 800 households from 100 villages will receive a lump sum Cash Grant. The size of the cash grant will be equivalent to the total average asset value transferred and the consumption stipend.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	United Nations High Commissioner for Refugee Zambia Graduation Project		
2. Country	Zambia		
3. Region (within the country)	Meheba Refugee Settlement, Solwezi		
4. Main Contact Person	Name:	Michael Lerner	
	Organization:	UNHCR	
	Email:	lerner@unhcr.org	
	Phone:	+260978831545	
5. Program Objective(s) (100 words)	<p>UNHCR receives over 1,000 new refugees each year, most of whom are placed by the government in rural settlements. The government provides the land and UNHCR provides primary health care, education, water/sanitation, and other socio-economic support components. Cash assistance, income generating activities, and other livelihoods interventions are provided depending on the funds available. UNHCR Zambia and its government partners acknowledge that Graduation can significantly improve the targeting, sequencing, integration, and sustainability of support. Graduation will enable UNHCR Zambia to:</p> <ul style="list-style-type: none"> - Reduce the number of cash assistance recipients by engaging family members with the capacity to be economically active and achieve self-reliance. - Determine the UNHCR and partner staffing and administrative systems necessary to enroll new refugee arrivals and other vulnerable groups who qualify into the Graduation Approach to receive targeted, sequenced support and avoid long-term dependence.

Program Details

The Graduation Approach is a “big push” to helping the poorest build sustainable livelihoods with a mix of interventions including transfers and access to financial services.

1. Program Name	Supporting Women’s Livelihoods (SWL)		
2. Country	Zambia		
3. Region (within the country)	Nation-wide (51 out of 105 districts)		
4. Main Contact Person	Name:	Emily Weedon and Shubha Chakravarty	
	Organization:	World Bank	
	Email:	eweedon@worldbank.org and schakravarty@worldbank.org	
	Phone:	(202) 473-6817 (Emily) and (202)473-5870 (Shubha)	
5. Program Objective(s) (100 words)	The project development objective is to support the Government of Zambia to increase access to livelihood support for women in extremely poor households in selected districts. By providing beneficiaries with a comprehensive package of interventions (business and life skills training, a grant of approx. \$225, follow-up mentoring, and support to form savings groups), the project aims to enable women to develop sustainable income-generating activities, improve their standards of living, and graduate from poverty.		
6. Is this a pilot program? (please “check” by double-clicking in front of the box)	<input checked="" type="checkbox"/> No <input type="checkbox"/> Yes		
7. Start Date (Year)	2016		
8. Estimated End Date (Year)	2020		
9. Is the Graduation Approach being integrated into the lead organization’s ongoing work (beyond piloting)?	<input type="checkbox"/> No <input checked="" type="checkbox"/> Yes If “yes”, please explain (50 words): The SWL is a Government initiative that is expected to scale up to 75,000 women in 51 districts over a period of three years. It will be one of the largest activities run by the Ministry of Community Development and Social Welfare (MCDSW) and hence well integrated into their ongoing work.
